## Our values

Our values are our moral compass and core to our DNA. They underpin the way we deliver our services and treat those who use our services.

To many organisations values are just words which don't translate into reality of the day to day but our values flow through everything that we do, they define who we are, what we stand for and set the expectations of our colleagues, communities, customers and partners. They have been defined by our colleagues and have been integral to our journey so far and will be integral to our future as well.

We have three values which help us stand out from the crowd, not just because there's only three, but because they are unique to who we are. We care, we think, and we do.

Care	Think	Do
