

Job Title:	Lead Pharmacist- North Kent Business Unit (BU)
Reports to (job title):	Operationally- BU Head of Patient Quality and Safety Professionally- HCRG Care Group Chief Pharmacist
Professional responsible for:	Community Hospitals Inpatient Pharmacist Covering: Livingstone Ward, Dartford, Sapphire Ward Gravesham Community Hospital Harty Ward, Sheppey Community Hospital Kestrel Ward, Sittingbourne Memorial Hospital

## Job purpose

HCRG Care Group's mission is to work with colleagues and service users to deliver exceptional services and to shape the future of health and care. Our purpose is to continuously improve the organisation and services to enable everyone to 'feel the difference'.

This will be a high profile post responsible for medicines optimisation on behalf of the Business Unit (BU), working closely with the BU Head of Quality and Patient Safety and Chief Pharmacist overseeing medicines optimisation across the portfolio of adult community services, providing support and guidance, direction and influencing colleagues to ensure organizational and BU medicine optimisation objectives are achieved.

## Role Summary

The role holder will provide high-quality specialist pharmacy advice and support to services across the Business Unit, to ensure legal, safe, and effective medicines optimisation, and will influence and support the development of strategy to promote innovation in medicines optimisation. They will work with the Head of the Business Unit, Head of Quality and Patient Safety, Head of Operations, Clinical Service Managers, and Clinical teams to facilitate appropriate medicines optimisation activities. Including audit and analysis of such reports to develop in partnership with the Clinical Service Managers any required action plans for implementation. Providing ongoing support for completion of these, monitoring medicine incidents ensuring the learning is shared, providing advice and ongoing support to services during their internal service reviews and identifying services within the BU that may require additional support.

The role-holder will be responsible for ensuring that all statutory duties relating to medicines optimisation are met and systems are CQC compliant. They will provide assurance to the Senior Leadership Team (SLT) that medicines use, and management is safe and effective and will support the development and implementation of non-medical prescribing.

The role-holder will be expected to work in liaison with the corporate support functions in particular

# Job Description

with the Chief Pharmacist, Chief Nurse, Head of Regulation and Head of Quality

## Key responsibilities

This list is intended to summarise the key responsibilities and is not intended to cover every task that may be required of the role:

- Provide expert medicines management advice on all matters relating to inpatient, community healthcare, including situations outside the scope of national protocols, policies, and guidelines
- Promote good professional practice for medicines optimisation within the Region
- Being an active member of the Kent and Medway local Medication Safety Network, as well as the Organisational network.
- Establish and maintain effective working relationships with colleagues within the BU and wider HCRG Care Group members, as well as local Health and Care Partners.
- Monitor, analyse, interpret and provide advice and support on medicines related data, clinical audit and incident reports
- As requested, provide written and verbal reports, accounts and feedback on any work undertaken for discussion at BU Quality & Patient Safety Committee.
- Working with the Head of Quality and Patient Safety and Head of Operations proactively support services to fulfil the medicines management requirements of the CQC and Home Office (HO), including developing Standard Operating Procedures (SOPs), clinical guidelines, and supporting services to monitor and review their own performance
- Working with the Head of Quality and Patient Safety to identify improvements in medicines safety and medicines optimisation and support their implementation as part of continuous quality improvement
- Ensure that all services understand and implement the organisation's medicines policy
- Attend Clinical Governance meetings to advise on medicines optimisation requirements as required.
- Chair local BU Medicines Optimisation meetings
- Undertake audits and site inspection visits where required, providing feedback, advice and support as needed.
- Ensure principles of safe use and handling of medicines and Clinical Governance are built into all aspects of medicines optimisation within the services
- Working with the BU Operational Service Managers support service staff to achieve and maintain consistent competencies with regard to Medicines Management
- Support the BU NMP lead in the development and design of audit in prescribing, including the use of controlled drugs
- Support local Non-Medical prescribers in following current, evidence-based, best practice prescribing through local and national guidance
- Plan and organise own day to day work and be prepared to adapt quickly to provide appropriate response to rapidly changing BU clinical, professional and organisational situations or altered arrangements.
- Work as part of a team to achieve BU and organisational priorities
- Maintain an up to date and full awareness of all key aspects of the role including legislative changes, regulation, national, regional and local publications etc.
- Work within the Standards of Conduct, Ethics and Performance of the General

Car driver, with full driving licence

## Our values

Our values are our moral compass and core to our DNA. They underpin the way we deliver our services and treat those who use our services.

To many organisations values are just words which don't translate into reality of the day to day but our values flow through everything that we do, they define who we are, what we stand for and set the expectations of our colleagues, communities, customers and partners. They have been defined by our colleagues and have been integral to our journey so far and will be integral to our future as well.

We have three values which help us stand out from the crowd, not just because there's only three, but because they are unique to who we are. We care, we think, and we do.

## Confidentiality and Information Security

As our employee you will be required to uphold the confidentiality of all records held by the company, whether patients/service records or corporate information. This duty lasts indefinitely and will continue after you leave the company's employment.

All information which identifies living individuals in whatever form (paper/pictures, electronic data/images or voice) is covered by the 2018 Data Protection Act and should be managed in accordance with this legislation. This and all other information must be held in line with NHS national standards including the Records Management: NHS Code of Practice , NHS Constitution and HSCIC Code of Practice on Confidential Information and should only be accessed or disclosed lawfully. Monitoring of compliance will be undertaken by the Company. Failure to adhere to Information Governance policies and procedures may result in disciplinary action and, where applicable, criminal prosecution.

## Information governance responsibilities

You are responsible for the following key aspects of Information Governance (not an exhaustive list):

- Completion of annual information governance training
- Reading applicable policies and procedures
- Understanding key responsibilities outlined in the Information Governance acceptable usage policies and procedures including NHS mandated encryption requirements
- Ensuring the security and confidentiality of all records and personal information assets
- Maintaining timely and accurate record keeping and where appropriate, in accordance with professional guidelines
- Only using email accounts authorised by us. These should be used in accordance with the Sending and Transferring Information Securely Procedures and Acceptable Use Policies.

# Job Description

- Reporting information governance incidents and near misses on CIRIS or to the appropriate person e.g. line manager, Head of Information Governance, Information Security Lead
- Adherence to the clear desk/screen policy
- Only using approved equipment for conducting business

## Governance

Clinical governance is a framework through which organisations delivering health and care services are accountable to continuously improving the quality of their services and safeguarding high standards of care by creating an environment in which clinical and other forms of care flourishes. Employees must be aware that clinical governance places a duty on all staff to ensure that the level of care services they deliver to patients is safe and high quality, and that they follow/comply with our policies and procedures.

## Registered Health Professional

All staff who are a member of a professional body must comply with standards of professional practice/conduct. It is the post holder's responsibility to ensure they are both familiar with and adhere to these requirements.

## Risk Management/Health & Safety

The post holder has a responsibility to themselves and others in relation to managing risk, health and safety and will be required to work within the policies and procedures laid down by the company. Staff are required to observe the Hygiene Code and demonstrate good infection control and hand hygiene.

Employees must be aware of the responsibilities placed on them by the Health & Safety at Work Act (1974) to ensure that the agreed safety procedures are carried out to maintain a safe environment for other employees, patients and visitors. It is essential to always observe strict fire and security precautions.

All staff must report accidents, incidents and near misses so that the company can learn from them and improve safety.

## Safeguarding Children and Vulnerable Adults Responsibility

We are committed to safeguarding and promoting the welfare of children and adults at risk of harm and expects all employees to share this commitment.

## Medicines Management Responsibility

### Nursing or registered healthcare professionals

Undertake all aspects of medicines management related activities in accordance within the company's medicines policies to ensure the safe, legal and appropriate use of medicines.

# Job Description

## Skilled non-registered staff

Undertake all aspects of medicines management related activities in accordance with the company's medicines policy where appropriate training has been given and competencies have been achieved.

## Policies and Procedures

All colleagues must comply with the Company Policies and Procedures which can be found on the company intranet.

## General

We are committed to serving our community. We aim to make our services exemplary in both clinical and operational aspects. We will show leadership in identifying healthcare needs to which we can respond and in determining the most cost-effective way of doing so.

We recruit competent staff that we support in maintaining and extending their skills in accordance with the needs of the people we serve. We will recognise the commitment from our staff to meeting the needs of our patients.

The company recognises a "non-smoking" policy. Employees are not able to smoke anywhere within the premises or when outside on official business.

## Equal Opportunities

It is the company's intention to be an employer of choice and ensure that no job applicants or employees are unfairly disadvantaged on the grounds of gender, disability, race, ethnic origin, colour, age, sexual orientation, religion or belief, trade union membership or any other factors that are not relevant to their capability or potential. To this end, the company has an Equality and Diversity policy, and it is the responsibility of each employee to contribute to its success.

## Flexibility Statement

This job description is not exhaustive and may change as the post develops or changes to align with service needs. Any such changes will be discussed directly between the post holder and their line manager.

## Personal Specification

### Essential

- Registration as a pharmacist with the GPhC and minimum of 3 years post qualification experience
